Helping You Get To Market Quickly

TECH ETCH IS LEADING THE WAY TO HELP FACILITATE YOU IN THIS PROCESS BY MEANS OF OUR STATE-OF-THE-ART INNOVATION CENTER.

THE CENTER IS EQUIPPED WITH LEADING EDGE TECHNOLOGY, EXPERT ENGINEERING TEAM, AND TOP OF THE LINE SOFTWARE WITH THE FOCUS ON QUICK PROTOTYPING.

Innovate Your
Products at
Tech Etch

Innovation to Invention.

The state of the art Innovation Center at Tech Etch is here to make your design a reality.

Idea

Submit your idea to our technical support who will provide design recommendations and put it to quote within 24 hours.

Prototypes

The Innovation Center provides quick turn capabilities to take your concept to prototype for testing needs.

Qualifications Build

Having an ISO AS9001:2015 & AS9100D certified quality management program allows for a controlled process for your qualification needs.

Production

With over 700 people and approx. 300k sq ft. of floor space spanning 3 facilities in the US, we are here to take your idea and manufacture it in volume.

We Innovate
To Support YOU.

About The Innovation Center

The Innovation Center is equipped with engineering experts that will not only help get you parts quickly but will also assist you in making sure your design will be manufacturable and production ready.

The Innovation Center provides customers with accelerated deliveries for prototype builds.

Tech Etch Making Your Ideas Happen

Once an order is received our engineering team will immediately begin tooling your design. A dedicated technician will process your design from start to finish with focus, specifically on your design. With our production facility located in the same building, we know what it takes to bring low quantity / quick prototypes to production volume.

Flex & Rigid Circuits

Standard Innovation lead-times are:

Flex Circuits: 3 Days - 3 Weeks

Rigid Flex Circuits: 1 Week - 3 Weeks

Precision Etch & Form

Standard Innovation lead-times are:

Flat: 2 Days - 5 Days

Formed: 3 Days - 3 Weeks

EMI/RFI Shielding

Standard Innovation lead-times are:

EMI/RFI: 3 Days - 3 Weeks

*All lead times are design dependent
